### Just a fraction of what DuoMax Hand Sanitizer is effective against:

E.Coli, Salmonella, Tuberculosis, C.Diff (spores) , MRSA, HIV, Swine Flu (H1N1), Avian Flu (H5N1)

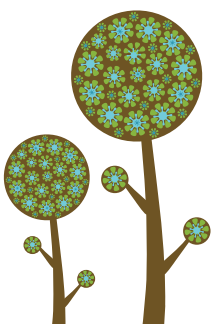

One of the most important measures for preventing the spread of pathogens is effective hand washing and that's why DuoMax Hand Sanitizer is an essential tool in personal hygiene.

This British made alcohol free product is proven to kill 99.9999% of all know bacteria as well as many viruses and spores.

Whilst DuoMax kills germs and cleans it will remove odour and doesn't dry out hands or irritate skin. Another added feature of the product containing no alcohol is that it is non flammable and non corrosive.

No matter where you are or what situation you are in, DuoMax hand sanitizer is quick and easy at de-bugging and cleaning your hands with no water or towel required.

The hand sanitizer foam and pump has been especially designed to be more economical than gel or soap so you get your monies worth. When applied to forms a rich lather witch spreads perfectly over hands and between fingers covering all parts of the hand making it more efficient.

## Environmentally safe
